

WSA believes that the commitment to developing coaches of all levels is an ongoing process. The learning cycle of application, experience, reflection and development requires the combination of both education via courses and implementation in a coach's club environment, which should be reflected in the course structure.

This process revolves around the alternation of an in-person meeting, deliberate practice, instruction, mentoring and peer learning and it should take 5-7 years in order to be able to apply for the A license and minimum 10 years for the PRO license.
